Document Type	NCC Compliance Intelligence Brief
Prepared For	MTN Nigeria
Prepared By	Iroko AI Atlas Intelligence Engine
Verdict	NO-GO -- Action required immediately
Confidence Score	78%
Violations Found	2
Actions Required	5
Generated At	2026-05-24T10:26:54Z
Classification	CONFIDENTIAL

1. Executive Summary

NO-GO -- Action required immediately

Confidence: 78%

Verdict	Confidence	Violations	NCC Refs	Actions Required
NO-GO	78%	2	2	5

Summary of Findings

NCC Compliance Check returned NO-GO. Two critical violations detected under NCC-003 and NCC-001.

Decision Evaluated

"MTN Nigeria plans to increase interconnect rates for Airtel Nigeria by 12% effective Q3 2026."

2. NCC Regulatory Analysis

The following NCC regulations are relevant to the decision under review. Each regulation is evaluated against the proposed action, with applicable penalties and enforcement implications noted.

NCC-001	Licensing & Enforcement Offences
Section 73	Fine up to N10 million + prosecution risk
Governs all licence conditions, false submissions, and material misrepresentation to the Commission. Any action that may constitute a false or misleading statement to NCC triggers liability under s.73. Immediate reporting and formal rectification required.	
NCC-003	Quality of Service (QoS) Reporting
Schedule III QoS Regulations	Fine up to N12.4 billion (industry-wide)
Requires quarterly QoS submissions by the 15th of the month following each quarter. Interconnect rate adjustments require prior regulatory approval and must not contravene approved wholesale tariff schedules. Unilateral rate changes constitute a QoS violation.	

3. Violations Detected

The compliance engine identified 2 violation(s) against the current NCC regulatory corpus. Each violation is detailed below with its applicable regulatory section and enforcement implications.

5. Risk Assessment Summary

Risk Dimension	Assessment	Level
Regulatory Compliance	NCC NO-GO	CRITICAL
Financial Exposure	Potential fine exposure	HIGH
Reputational Risk	Elevated — regulatory scrutiny likely	HIGH
Operational Impact	Immediate halt required	HIGH
Timeline Sensitivity	Urgent — 24h action window	CRITICAL

6. Evidence Sources

Source Title	Reference
